About SASTRA

***“Seeds of knowledge need a sound academic
soil for germination”***

Founded as Shanmugha College of Engineering in 1984, and later renamed as Shanmugha Arts, Science, Technology & Research Academy (SASTRA) on 6th April 2001. This institution was conferred the status of Deemed University on 26th April 2001. The University offers various UG, PG & Ph.D. programmes in Engineering, Sciences, Law & Management. SASTRA imparts value based higher education turning out good engineers, scientists, lawyers and researchers who are at the same time good individuals and good citizens in order that they may become useful members of an enlightened humane society.

SCHOOL OF LAW

SASTRA University has set itself high standards for legal education and with a view to build a World Class Law School, SASTRA has established SOL in the year 2008 and has undertaken to earnestly endeavour and leave no stones unturned by offering education to the students. With three 5 year Integrated Programmes (B.A., LL.B. (Hons.); B.B.A., LL.B. (Hons.) and B.Com., LL.B. (Hons.)) SASTRA provides the law students diverse knowledge in the field of Social Studies, Business and Economics. It is beyond doubt that the legal education at SASTRA will prepare legal professional who will play a decisive and critical leadership role in meeting various challenges in globalised knowledge economy. The students pursuing legal education have left their permanent footprints in various Moot Court Competitions conducted by premier Law Schools. SOL is ranked in Mooting Premier League and is the top ranked private law school in the State of Tamil Nadu.

CONTINUING LEGAL EDUCATION CENTRE

Legal education should be dynamic rather than static. In order to keep the lawyers abreast with the changing law in the society there is a need to organize seminars, conferences and workshops etc., both at the national and international level on various subjects of law which are still unexplored. Hence, Continuing Legal Education is the need of the hour.

SOL has therefore established a CONTINUING LEGAL EDUCATION CENTRE (CLEC) which has a scheme of organizing many national level programmes on various subjects. In an age of specialization and trans-national legal practice, enterprising professionals have to learn the changing demands for legal services and prepare themselves to the tasks involved. The focus is on young professionals seeking to mould their career on strong foundations of professionalism and best practices. These Programmes are designed to make them learn the developments in select areas of legal practice and to enable acquisition of capabilities to offer specialized services in multiple jurisdictions.

THEME:

“LAW IN THE AGE OF INFORMATION TECHNOLOGY”

“Law at its core is information and the application of that information”

Continued technological development and easy access to information pose an increasing challenge to lawyers. From online databases to predictive coding, technology has transformed the way legal professionals operate and interact. And the evolution continues: Innovations and new platforms that are unimaginable today will bring in fresh dynamics in the legal arena of tomorrow. Effortless task management of day-to-day legal work by synchronizing conventional legal wisdom with technological platforms is the way ahead.

This Seminar is designed as an intensive day long programme with multiple sessions, and will provide a panoramic coverage on the emerging contours of the relationship between law and technology. The technologies have become so ingrained in contemporary expressions of legal employment basket and is a huge leap forward in legal knowledge management. The use of mobile computing devices expands the spatial dimensions of workplace of legal professionals. This seminar aims to bring in the current developments in the techno-legal diaspora by extending an opportunity for cross disciplinary dialogue.
