**“Human Rights and Criminal Justice System”**

**CALL FOR PAPERS**

**ABOUT THE CONFERENCE:** Every human being has their inherent Rights entitled without any discrimination of nationality, colour, religion, language or any other status. All the rights are interdependent/interrelated and cannot be separated. They are the norms/moral principles which are being protected as legal rights. If these legal rights are disturbed then starts the role of the Criminal Justice System. The Criminal Justice System set into motion once they find the victims of crime. But the Indian Judiciary becomes very particular about the rights and the safeguards of the suspected and accused person as per the Constitution, Human Rights and Law of Criminal Procedure. Thereby it seems that Indian Criminal Justice System is more concern to suspect and accused oriented than victim oriented. Hence the main theme of National Conference is “Human Rights and Criminal Justice System” along with the following sub-themes. **Selected research papers/articles will be published in the ISBN/ISSN Books form the reputed publishers.**

**Sub-Themes:**

- 1. Human Rights Provisions in Indian Criminal Justice System and Indian Constitution.**
