**CONFERENCE ON
'PROTECTION OF RIGHTS & DIGNITY OF WOMEN IN DIGITAL
ERA'**

About the College

Seshadripuram Educational Trust started with 20 students way back in 1930, initiated by two great ladies **LATE SMT. ANANDAMMA & LATE SMT. SEETHAMMA**. The small institution has grown magnanimously and is imparting education to thousands of students. **Seshadripuram Law College** under the aegis of **Seshadripuram Educational Trust** is established in 1984 and has been imparting legal education to empower the youth since its inception. The College today stands amongst the best colleges in Karnataka with vast potential for excellence. It is all set to equip law aspirants with comprehensive analytical and practical legal knowledge in order to produce intellects who strive for all-round excellence. There is continuous endeavour to deliver best possible education. The college has been organizing various academic and allied events that expose the students to practical learning in the legal field and also provide an opportunity for interaction with leading legal luminaries. As a conscientious institution of law, it owes an ethical duty to contribute for the upliftment of vulnerable sections of the society including women. In this direction today we have organised a conference on **'protection of rights & dignity of women in digital era'**

Purpose of the Conference

The Constitution of India cherishes the goal of gender equality. Today we live in a world of infinite and flowing internet and communication technology. The modern era has facilitated social change, cultural reproduction leading to redefinition of gender relations. Technology has facilitated gender equality and women empowerment by dissolving the old basis of discrimination. However, even after seventy years of independence, equality is a myth and potential threat to rights of women continues. But there was transformation with increasing crimes against women. In modern digital era, we get to see the two faces of the society where one side women are respected and on other they are exploited to the core. Women have left no stone unturned, they serve from kitchen to the Space which proves their capabilities. In spite of their achievements, they are not given their due status in the society. We still see injustice being meted out to them. Therefore a pressing need is felt to understand the rights of women and to analyse the efficacy of legal provisions in digital era by **Karnataka State Commission for Women & Seshadripuram Law College**.

Advancement of technology which empowers women at the same time has become a bane. It should be curtailed by stringent laws to protect the dignity of women. The purpose of the Conference is to develop new strategies to evoke courage in women to fight for their rights & dignity. Let us hope that women get their rightful status and make the eternal line **'YATRA NARYASTU PUJYANTE RAMANTE TATRA DEVATA'** come true.

Sub-themes:

- Role of Constitution in upliftment of women
- Rights of women under personal laws
- Role of State Commission for Women in protection of dignity of women
- Empowerment of women through technology
- New age crimes against women
- Role of social welfare legislations in providing amenities to women
