About the Seminar

Access to Criminal justice is defined as the ability of people to seek and obtain a remedy through formal or informal institutions of justice for accusations in compliance with human rights standards. There is no access to justice where citizens fear the system, see it as alien, and do not access it; where the justice system is financially inaccessible; where individuals have no lawyers; where they do not have information or knowledge of rights; or where there is a weak

justice system. Access to criminal justice, in general is a major challenge in the contemporary time and the factors responsible for its denial need to be pondered upon for a more accountable system of criminal justice. Taking these facts into consideration, University Five Year Law College, Jaipur is organizing a 'National Seminar on Access to Criminal Justice' on April 20 & 21, 2019.

Crimes and criminals are universal and eternal problems of human society, but the point to be concentrated is that the rate is on an increasing trend which needs to be concentrated. In a fast globalizing world affected by transnational crimes like terrorism, drug cartels, human trafficking mafia inspired crimes, Political violence and other traditional crimes, there is a need to develop strategies to control and prevent criminal activities and effectively deal with criminals. However, the data provided by the National Crimes Records Bureau (NCRB) do not depict a better picture in terms of combating crimes in India. There is no denying the fact that such discourses do have a strong impact on the criminal justice process that involve the law enforcement agencies, prosecution, judiciary and corrections. The criminal procedural laws provide for a mechanism of effective disposal of cases right from registration of cases till execution of sentences. Unfortunately, the system has resulted in poor delivery of justice. Besides, with the advancement of science and technology, every stage of criminal proceeding encounters new challenges which need to be addressed. The investigation of computer crimes and the gathering of appropriate evidence for a criminal prosecution can be an extremely difficult and complex issue for the investigating agency, due primarily to the intangible and often transient nature of data, especially in a networked environment.

The seminar will be hosted on the topic ***National Seminar on Access to Criminal Justice*** on 20th & 21st April, 2019 with the objective to generate awareness and draw out solutions through research, deliberations and discussions to assess the functioning of the crucial components of criminal justice i.e. law enforcement agencies, prosecution, judiciary and corrections including the challenges involved in the criminal justice in India with an effort to evolve strategies for a more effective mechanism for betterment.

Objectives and Desired Outcomes of the Seminar

By engaging national-level representatives, legal aid providers, civil society members, and other experts on common challenges to providing the poor and vulnerable with access to effective criminal legal aid services, and showcasing good practices and innovative solutions to common challenges this seminar will focus on practical and achievable outcomes. The seminar will build on the presentations and discussions, and will highlight efforts to strengthen access

to legal aid in India in recent years. Throughout the seminar, participants will be encouraged to develop concrete and action-oriented plans to address challenges related to the provision of legal aid services and advance implementation of the UN Principles and Guidelines and Constitutional Goals.
