

CORPUS JURIS CALL FOR PAPERS: INDEXED JOURNAL ACCEPTING SUBMISSIONS TILL SEPT 3, 2020

Corpus Juris has successfully garnered an international outreach in its latest editions and has consistently been publishing articles by researchers, academicians, practising professionals and students. We have seen an enormous growth in terms of the diversity of themes and quality of articles published on our platform.

The ideology of Corpus Juris emanates from the acumen and philanthropic vision of its founders who maintain that no original thought process should be invalidated, in order to ensure a staunch inclusive learning process. To sustain our humble attempt to reinstate the lost atmosphere of legal research and progress, we invite submissions for Volume II Issue 3.

ABOUT CORPUS JURIS

Corpus Juris bears the ISSN Number 2582-2918 and has been indexed by organisations such as the International Institute of Organized Research and ResearchBib (<https://corpusjuris.co.in/indexing-%26-impact-factor>) and applications for several others are underway.

We are a blind peer-reviewed journal wholeheartedly dedicated to publishing original research papers, articles, case reviews and commentaries reflecting the thought process of the authors and aim at generating dialogue on matters of current interest. The journal does not restrict its authors by any specific theme to ensure expression of views is on matters of their interest.

This initiative was launched with the vision of providing assistance to law students who particularly face multifarious hindrances to publish their manuscripts/research papers. Since we believe in an inclusive learning process, our services are not merely limited to accepting/rejecting submissions

but also extend to offering services such as telephonic sessions for beginners, independent plagiarism checking via our software and review each manuscript we receive with customised comments/feedback.
